emotional experience of bonding through sound and music with their developing baby.

Ritmo can connect to most audio devices with a universal stereo plug—such as iPods/iPhones, MP3 players, and Blackberries.

The expectant mother wears this fashionable, lightweight belt around her pregnant belly. The belt has four speakers and a controller, which fits comfortably into a pocket.

Her audio player plugs into the controller, which utilizes Nuvo's patented Safe & Sound

Technology to regulate output to a safe level for a baby to hear in-utero, regardless of how loud the sound was recorded or the volume that it is played.

Research shows reactive listening begins at 17 weeks gestation. Often referred to as the Mozart Effect, numerous studies show that music contributes positively to human fetal development, bonding and stress reduction.

With Ritmo, sound that can be delivered in utero has expanded beyond music to include voice through
