

RiTMO™

The best way to play music safely and effectively to your baby in the womb.

Ritmo™ is a comfortable, safe and FUN way to play music to your baby in the womb.

Ritmo™ provides a winning combination of state-of-the-art prenatal acoustic technology, versatility and functionality.

RITMO™ connects seamlessly to your own audio player, so your baby will hear the sound and music that is important to you...

From your favorite Beatles song to Dad reading a goodnight story or even a recording of the family dog barking!

The sky's the limit.

Designed specifically for prenatal use, Ritmo™'s sound output is safe and ideal for a baby in the womb.

We call this Ritmo™'s Safe and Sound Technology. Expectant parents call this "Total Peace of Mind".

DID YOU KNOW?

Hearing is the most developed of all senses before birth. The baby can hear clearly from 17 weeks of pregnancy.

Numerous studies show that playing music to a baby during pregnancy increases bonding and reduces stress. Basically, when mom is relaxed and happy, then baby is too.

“My Ritmo™ is so comfortable. I wear it when I'm cleaning house, watching TV, or even reading a book, I am a big fan of the Temptations so I play them on my Ritmo™ so my baby can enjoy it too. When he starts moving I know it's working!”

Tara Meussling

Dads-to-be are more involved in their children's lives and parenting than ever before.

Until now, their participation in pregnancy was limited. But with Ritmo™, men can actually begin to bond with their baby before to birth by prerecording audio of their voice, such as...

- ♥ reading a favorite bedtime story
- ♥ singing a lullaby
- ♥ talking to pregnant mom on her mobile phone while baby listens in

Ritmo™ Audio Controller*
